Threat Environment

The Greater Houston metropolitan area presents a **moderate-to-elevated threat environment** for conservative political organizations. As the nation's fourth-largest metro and George Floyd's hometown, the region experienced significant civil unrest during 2020 and maintains active cells of multiple left-wing activist and armed groups. Houston also has notable right-wing extremist presence, including the site of Patriot Front's first public appearance.

Primary Left-Wing Threat Actors: - **Antifa-affiliated networks** — Decentralized cells with documented presence; connected to broader Texas antifa networks implicated in Prairieland ICE attack - **Party for Socialism and Liberation — Houston (PSL)** — Largest organized left presence with 15K Instagram followers; opening community organizing center in 2026; documented antisemitic incidents at protests - **Houston DSA** — Democratic Socialists chapter with ~3K Instagram followers; focused on electoral/labor organizing - **New Black Panther Nation** — Houston-based black nationalist group led by Quanell X; SPLC-classified hate group

Threat Matrix

Overall Assessment: MODERATE-ELEVATED

Houston presents a complex threat environment requiring comprehensive security planning.

Risk Categories

Protest Disruption

Factor	Assessment
Likelihood	HIGH
Impact	MEDIUM
Overall Risk	**ELEVATED**

Rationale: - PSL Houston has 15K followers — largest Texas left org - Strong coalition infrastructure - History of rapid mobilization - Opening of physical organizing center increases capacity

Mitigation: - Social media monitoring - Venue selection away from public areas - Security perimeter planning

---

Physical Confrontation

Factor	Assessment
Likelihood	MEDIUM
Impact	HIGH
Overall Risk	**ELEVATED**

Rationale: - Armed groups exist on both sides - Less frequent armed confrontations than DFW - Proud Boys, TITFF active in area - Antifa networks present but lower profile

Mitigation: - Professional security - HPD coordination - Physical barriers/separation

---

Doxxing / Online Targeting

---

Comparative Risk: Houston vs. DFW

Risk Factor	Houston	DFW
Left-wing protest disruption	ELEVATED	ELEVATED
Armed left presence	MODERATE	ELEVATED
Armed right presence	ELEVATED	ELEVATED
Islamist terrorism	**MODERATE**	LOW
Historical precedent	Moderate (2020)	High (2016, 2023, 2025)
Organization capacity	High (PSL 15K)	High (PSL 11K)

Key Difference: Houston faces unique Islamist terrorism risk not present in DFW; DFW has more active armed left (JBGC) presence.

Seasonal Risk Assessment

Period	Risk Level	Drivers
Jan-Feb	MODERATE	Inauguration period
Mar-Apr	MODERATE	Spring protest season begins
May	**ELEVATED**	May Day, George Floyd anniversary
June	**ELEVATED**	Pride month; drag event protests
Jul-Aug	MODERATE	Summer heat reduces activity
Sep-Oct	**ELEVATED**	Oct 7 anniversary; election season
Nov	**ELEVATED**	Election period
Dec	MODERATE	Holiday period; some religious targeting

Event-Specific Risk Factors

Factors That Increase Risk

1. **Controversial speaker:** Speakers known to left (turning point, etc.)
2. **Jewish affiliation:** Events connected to Jewish community
3. **Timing:** Events near high-risk dates
4. **Location:** Downtown, near government buildings
5. **Publicity:** High-profile media coverage

6. **Size:** Larger events draw more attention

Factors That Decrease Risk

1. **Private venue:** Controlled access
2. **Low publicity:** Limited advance notice
3. **Non-controversial agenda:** Routine political activity
4. **Strong security:** Visible professional security
5. **HPD presence:** Law enforcement coordination
6. **Off-peak timing:** Avoiding high-risk dates

Residual Risk Statement

Even with comprehensive security measures, residual risk remains:

- **Lone actor attacks:** Cannot be fully prevented
- **Online harassment:** Difficult to stop entirely
- **Protest activity:** Protected First Amendment activity
- **Reputation attacks:** Outside security scope

Organizations must accept some level of risk when operating in politically contested environments. The goal is risk management, not risk elimination.
Recommendations

Executive Summary

Based on the threat landscape analysis, the following recommendations are provided for conservative political organizations operating in the Houston metropolitan area.
