# NET ETIQUETTE

13th Legion — Training Reference

Comms Basics · Training Block 3 · 2026

This is how you talk once you have the station. Who is on which net, and how you keep it secure, is **Radio Familiarity**. What you send is **Reports**.

Prowords are short standard words with one agreed meaning, used across all units. They make traffic readable and they cut down on "say again" loops. The standard for the words you choose is the 3 C's: **Clear, Concise, Correct**.

## 1. PROWORDS

| PROWORD | MEANING |
|---|---|
| **BREAK** | Pause. More of the same message is coming. Unkey while you pause. |
| **OVER** | I am done talking, and I am expecting a response. |
| **OUT** | End of the transmission. I am done talking. Do not respond. |
| **CORRECTION** | Corrects a misheard message. |
| **ROGER** | Confirms receipt of the message. |
| **SAY AGAIN** | Ask the sender to repeat the last transmission. |

**NEVER SAY "REPEAT".** Say again. And never say **"over and out."** Over asks for an answer. Out says do not answer. Together they contradict each other, and the block calls it redundant for that reason.

## 2. TERMS

Say the abbreviation, or the phonetic the block gives, and mean that thing only.

| TERM | MEANING |
|---|---|
| **RP** | Rally point |
| **AO** | Area of operation |
| **FOB** | Forward operating base |
| **TOC** | Tactical operations center |
| **PL** | Phase line — Papa Lima |
| **LD** | Line of departure — Lima Delta |
| **LOA** | Limit of advance |
| **OM** | On mission — Oscar Mike |
| **CM** | Continue mission — Charlie Mike |
| **NAI** | Named area of interest |
| **RTB** | Return to base |
| **Prowords** | Procedure words |

## 3. PHONETIC ALPHABET AND NUMBERS

Spell on the air with the NATO phonetic alphabet. Each letter is a word that starts with that letter. "DOG" is **Delta Oscar Golf**. Say the word the way the pronunciation column has it, not the way you would say it in conversation. Three, four, five, and nine are the numbers that change.

| LETTER | WORD | SAY IT | LETTER | WORD | SAY IT |
|---|---|---|---|---|---|
| **A** | Alpha | al-fuh | **N** | November | noh-vim-ber |
| **B** | Bravo | brah-voh | **O** | Oscar | os-ker |
| **C** | Charlie | char-lee | **P** | Papa | pah-pah |

| DIGIT | WORD | SAY IT | DIGIT | WORD | SAY IT |
|---|---|---|---|---|---|
| **0** | Zero | zee-roh | **5** | Fife | fife |
| **1** | One | wun | **6** | Six | siks |
| **2** | Two | too | **7** | Seven | seh-vin |
| **3** | Tree | tree | **8** | Eight | ate |
| **4** | Fower | fa-wer | **9** | Niner | ny-ner |

## 4. ESTABLISHING CONTACT

The call is: **"Hey YOU, this is ME, over."** Their callsign, then yours, then over.

- **Do not relay the information until they answer.** Contact first. The report second.
- No answer: **wait 30 seconds** and try again.
- Still no answer: **wait 2 minutes** and try again.
- If that fails, stop mashing the button. Troubleshoot the radio — line of sight and terrain, antenna height, foliage, transmit power. That checklist is in Radio Familiarity.

## 5. RUNNING THE CONVERSATION

| YOU SAY | YOU MEAN |
|---|---|
| **Over** | Expecting a response. Stop talking. |
| **Break** | More information follows. Unkey for each break. |
| **Out** | End of the conversation. They do not answer. |

> **EIGHT SECONDS.** A transmission should be no more than 8 continuous seconds. That is why a LACE report is sent as Lima, break, Alpha, break — not as one breath. Unkey on the break.
